A231: W60Z
A229: W65Z
A234: W80Z
A230: B60Z
A233: B80Z

Narrow Aisle In keeping with our tradition of raising the standards, this family of trucks now offers the latest enhancements. The improvements to the Multi-Function Control Handle, the Mast Assemblies and the Pantograph Reach Mechanisms each contribute to the comfort, visibility, and reliability you have come to expect.

Walkie/Rider Redesigned for functionality. Improved positioning of the controls minimizes wrist and arm rotation thereby reducing fatigue. In the Walkie models, 'Creep Speed' control allows more maneuverability in smaller spaces. The Rider 'Side Glide' control option allows the operator to pick in a "forks trailing" direction. The larger operator platform and traction reversing actuator (or belly switch) prove that 'form' truly does follow 'function'.

The W60Z and B60Z pages also reflect the availability of 'sold alone' kits from the Parts Depot.

Very Narrow Aisle. Series codes A467, A468 and A469 have been changed to A463, A464 and A465 respectively. This action will unify our theatres of operation for our global customers. Pricing and options remain unchanged.

Please replace your price pages with this update and discard these series: B470, F138, A264, B471, A467, A468, A469, E135 and B199.

Best regards and good selling!
