Re: Wajax / Hyster National Account

Dear Steve:

As outlined in our proposal of August 23, 2008, one of the many benefits of entering into a dealer managed "National Account" agreement, is that the entire program will be spearheaded and managed out of our Langley offices, with one account manager responsible for all the locations across Canada.

Ainsworth Lumber, of course, will continue to be called on by the local Wajax branches in the area.

Once you have agreed, and Hyster has established the very best possible discount structure, all branches will benefit from the same savings.

Our account manager will be Curtis Kostyniuk, and he will introduce himself to your people responsible at the branches (with your approval), and will coordinate all the Wajax representatives at the various locations to deliver to Ainsworth the best in service, rentals, loaners, as well as specifications for new product. Once a machine has been specified at the branch with input from Ainsworth and the local Wajax rep, the specifications will be sent to Curtis for final review and discounting.

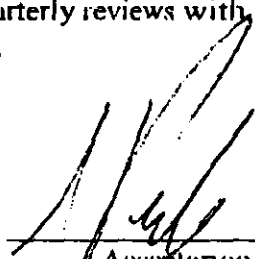

We will be pleased to work closely with your personnel to prove ourselves as a reliable and willing partner in the National Account program. With time, I am sure that you will see the many benefits to Ainsworth, along with a streamlined process of acquisition.

Once the program is in place, we will appreciate quarterly reviews with yourself to determine the progress in building our relationships.

We look forward to your favourable response.

Sincerely,

Val Wright
Sales Manager, Materials Handling, BC Region
