Ask Us About the "Freighter's Special"

Designed to enhance maneuverability in confined spaces like trailers, the **Freighter's Special** option includes fork tips that are 2 inches shorter than standard fork tips and a bumper designed to provide a tighter right angle turn for easier stacking. These features allow operators to load up to two additional pallets per trailer!

W40Z

MH Equipment

People, Passion, Purpose...

The Hyster® W40Z is redefining navigation in small spaces. The attributes of this general-purpose Walkie greatly enhance maneuverability on crowded loading docks and inside narrow trailers.

Standard W40Z "creep speed" function allows truck to run with the control handle in the full "up" position, giving operators better visibility by placing them closer to loads.

Fingertip control of all truck functions with either hand aids steering and pallet positioning in tight spots.
