

FMEG UPDATE DOWNLOAD INSTRUCTIONS

SPECIAL NOTE: It is absolutely imperative that the updated Hyster Suite 5.0 is loaded before making this update. **DO NOT DOWNLOAD IF THE NEW SUITE HAS NOT BEEN LOADED ON YOUR COMPUTER!**

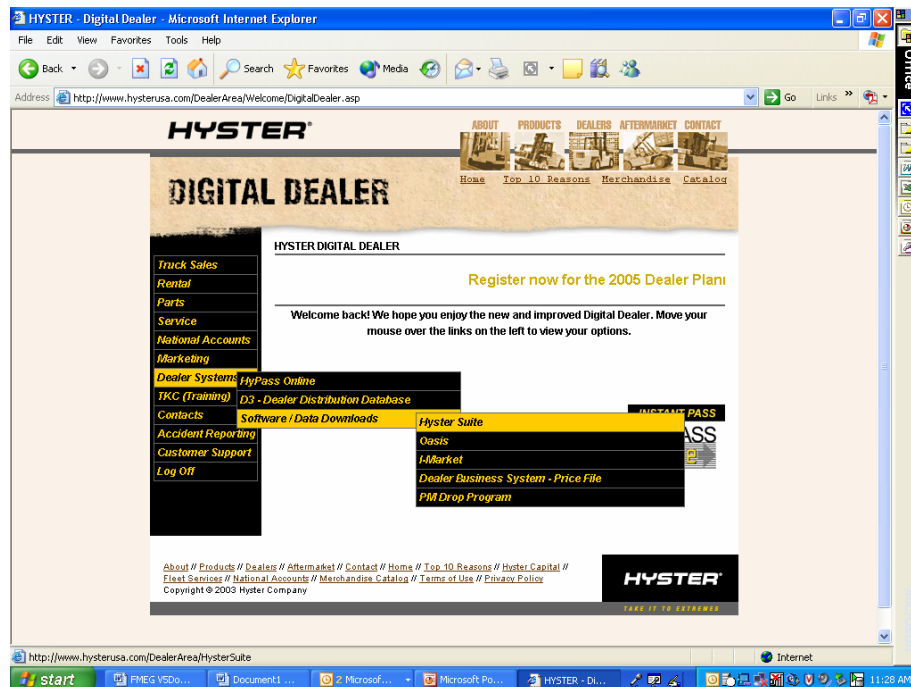

1. Open your web browser and go to the Hyster USA web site (www.hysterusa.com)
2. Click on **DEALER LOGON**

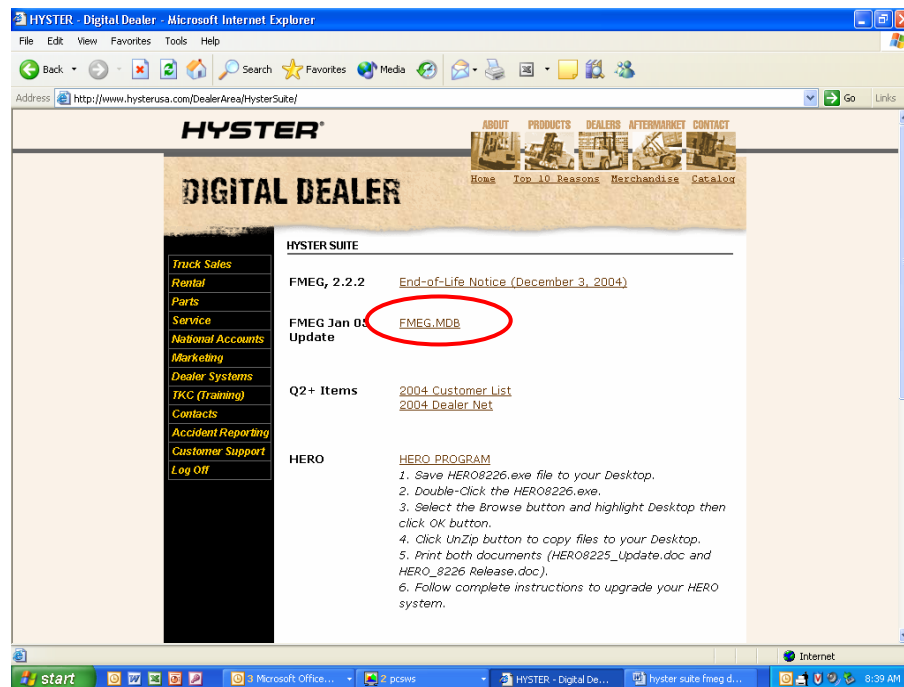

3. Enter your User Name and Password and click **LOGIN**

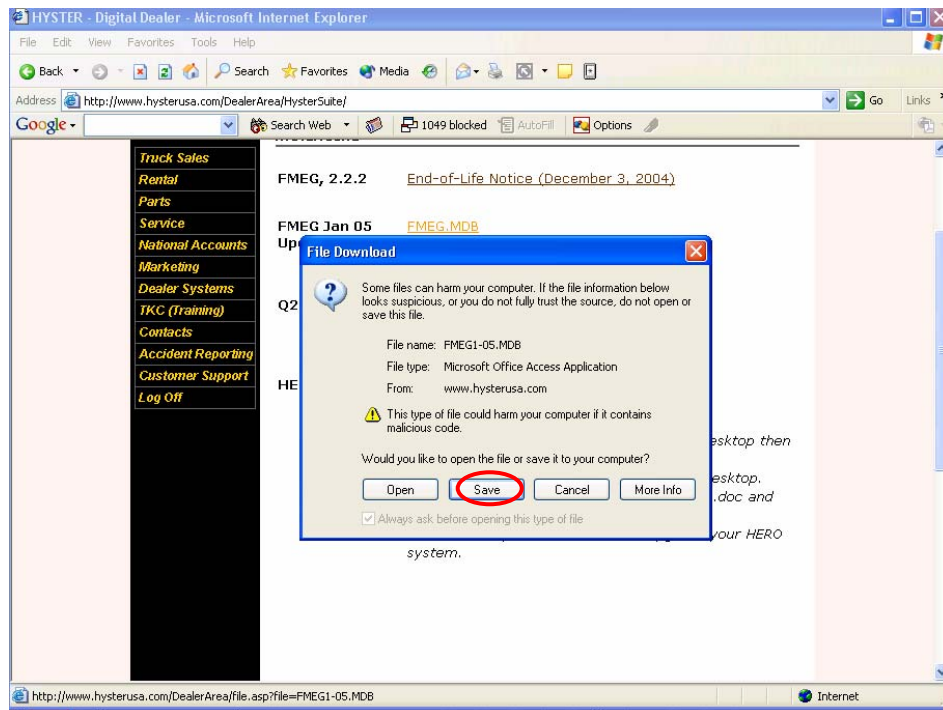

4. Click on **DEALER SYSTEMS** then **SOFTWARE/DOWNLOADS** then **HYSTER SUITE**

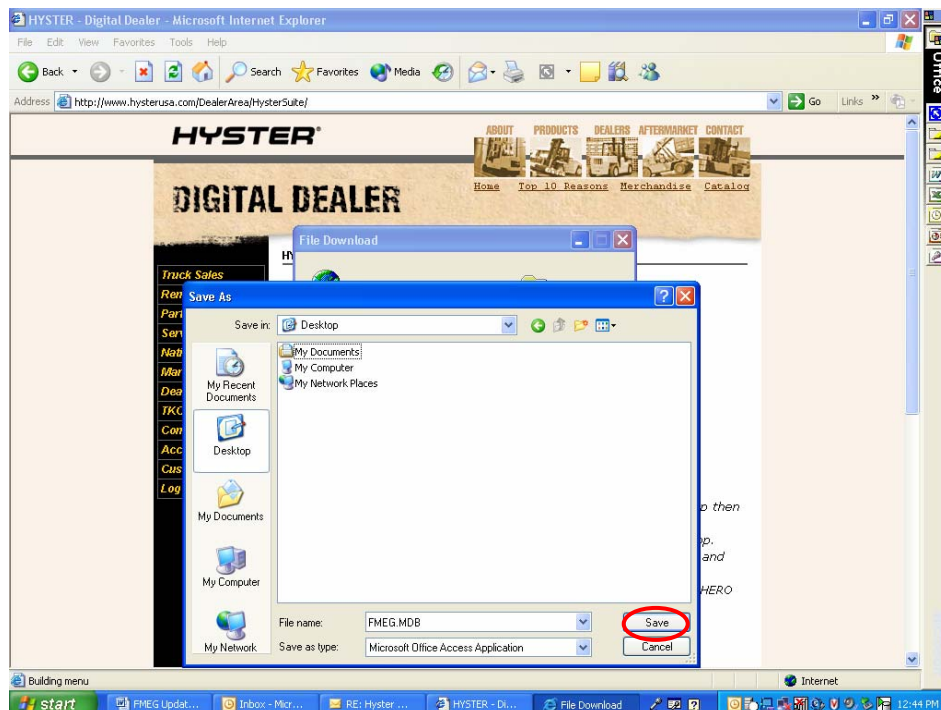

5. Click on the file (FMEG.MDB) next to FMEG Update

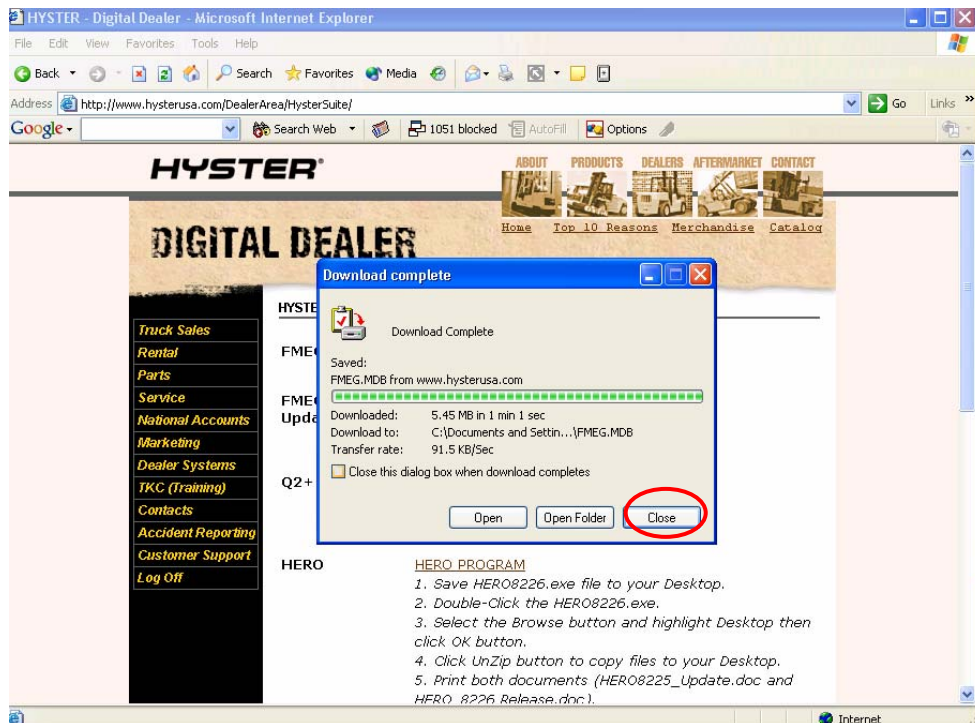

6. The File Download dialog box will open. Click on **Save**

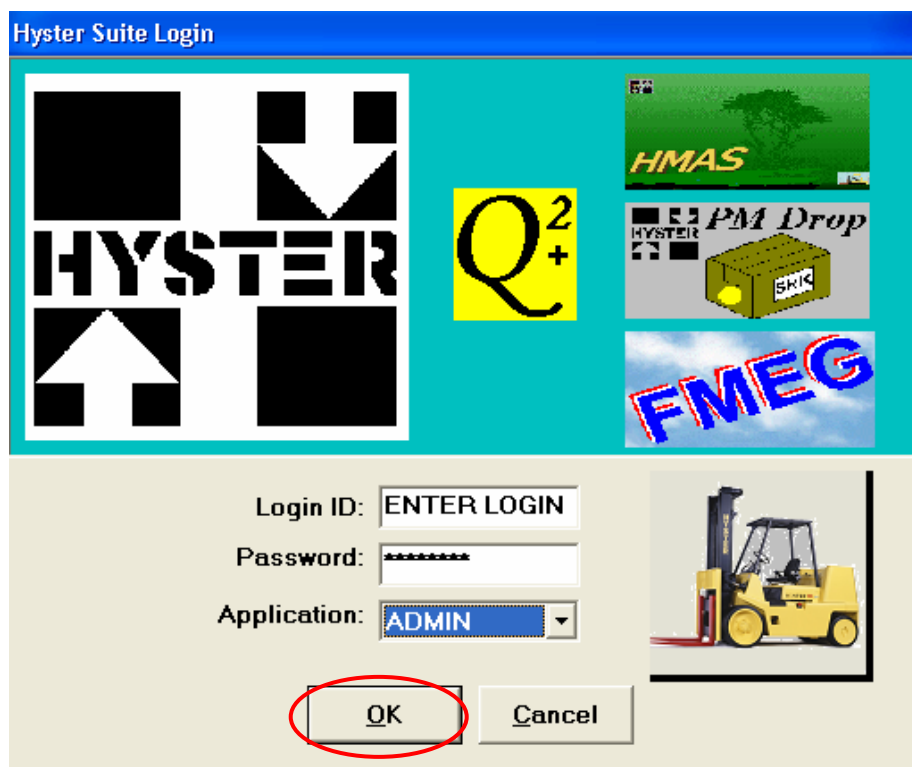

7. When prompted **Save** the file to your Desktop or a directory on your PC. If you receive a message prompting you to replace an existing FMEG.mdb file please select yes. Please note that the download file is 5.45MB and it may take several minutes to complete the download depending on your connection speed.

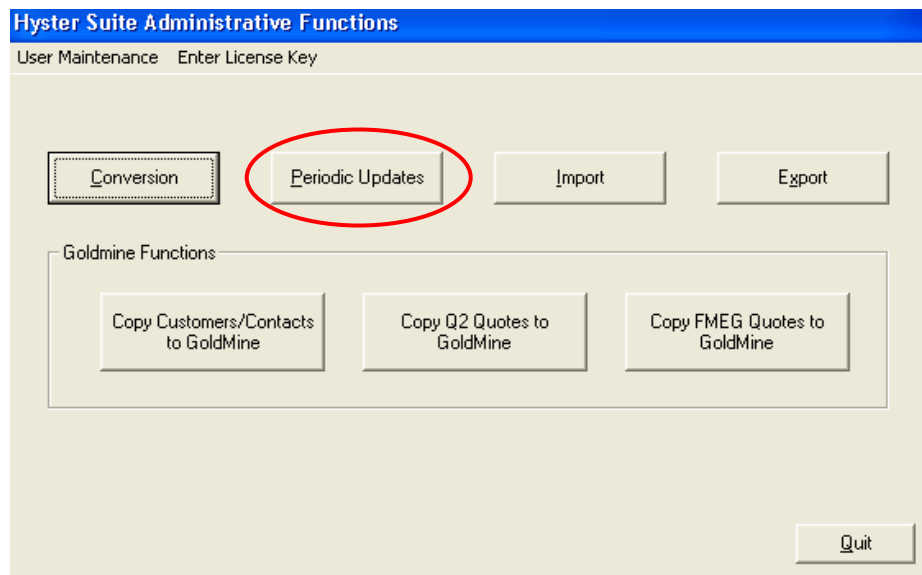

8. Once the download is complete click on **Close**.

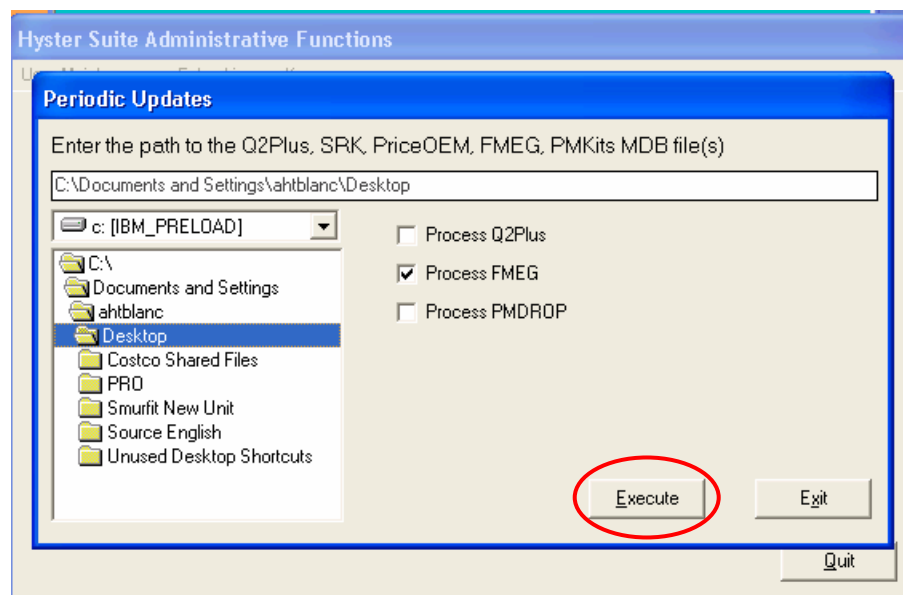

9. Open the Hyster Suite and enter your **Login ID** and **Password**. Select **ADMIN** for the Application and click on **OK**.

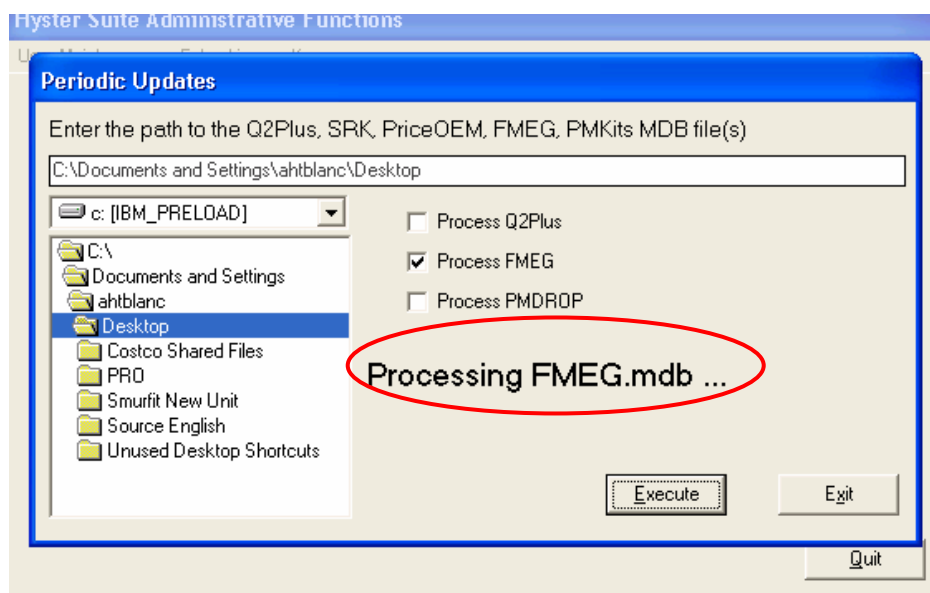

10. Select **PERIODIC UPDATES** from the Administrative Functions screen

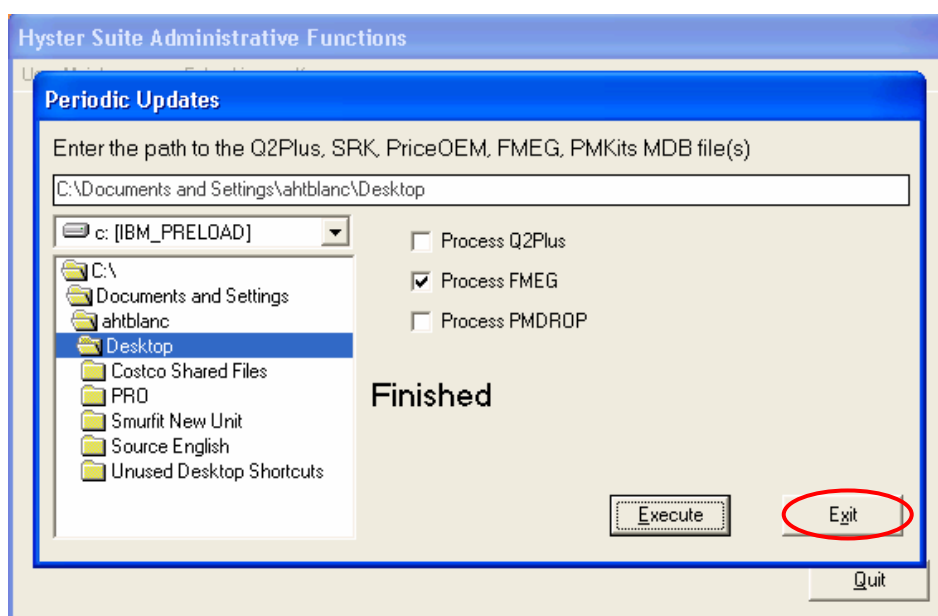

11. Select the location of where the download file was saved to on your PC. Select **Process FMEG** from the menu and click on **Execute**.

12. The message **Processing FMEG.mdb** will verify that the update is in progress.

13. When you receive the message reflecting that the update is **Finished** click on **Exit**

To verify that your FMEG update was successful please log into the Hyster Suite and open the FMEG program. Click on **File** in the toolbar and select **Display Model List**. Please review and confirm that the new Fortis models (S40-70FT) are present.
