

CASCADE FORK POSITIONERS

IMPROVE EFFICIENCY

Cascade is a premier supplier of attachments and forks for lift trucks of all makes, models, and sizes at a price that helps keep you competitive. Hyster Company through the UNISOURCE™ Parts Program, offers Cascade's K-Series Fork Positioners. These fork positioners are made to fit on all competitive brands of lift trucks.

The K-Series fork positioners offer the following features to provide higher productivity:

- Class II or III, 5,000 and 6,500 and 10,000 lb capacities
- OEM load backrest compatibility
- No-weld installation
- Fork carriers; 55K – 4" & 5", 65K – 5", 100K – 5", 6', & 7"
- 60" maximum fork length
- Zinc plated corrosion resistant components

All K-Series fork positioners purchased through the UNISOURCE™ Parts Program count toward your 2011 "You Make It Happen" recognition program.

- To find the UNISOURCE™ part number for your next order, please [click here](#).
- The fork positioner pays for itself, see attached [ROI Calculator](#).
