

MOBILE ESET22 PALLET TRUCK

DESIGNED WITH YOU IN MIND

The ESET22 is a new intermediary product designed to provide a self-propelled product for customers with limited budgets and the need for additional benefits beyond a manual pallet truck. This unit is ideal for customers making long runs in medium to large warehouses, manufacturing facilities, large office buildings or hospitals.

Specifications of the ESET22 ([click on link for complete spec sheet](#)):

- Capacity: 2,200 lbs
- Overall fork Width: 20.5" or 27"
- Fork Length: 48"
- Battery Voltage: 24 Volts (2 Batteries)
- Charger: 24 Volt

Features of the ESET22 ([click on link for customer flyer](#)):

- Quick Lift Pump Design
- Helper Rollers for easy pallet entry
- Stabilizer Wheels under body ensures load stability
- Onboard Charger plugs into 110 volt outlet
- Battery Discharge Indicator

The ESET22 pallet truck is painted Mobile yellow with Mobile ECO decals and is available for immediate shipment from Mobile's Buffalo, NY or Mississauga, ONT warehouses. Part numbers are:

20.5' X 48" UNISOURCE # 4024743 Freight Extra

27" X 48" UNISOURCE # 4024745 Freight Extra

To ensure proper Aftermarket support for the ESET22, the breakdown of available parts can be found by [clicking here](#).

As always, purchases through the Mobile program will count towards your 2011 "You Make It Happen" target objective.
