

Downtime Is Costly

When it comes to lift truck performance, quality parts and parts availability are two key factors necessary for reliable and operable equipment.

Our service vans carry the most popular Parker Hose & Fittings --

one of the widest ranges of specialty, industrial hybrid and hydraulic hoses in the industry.

This means no lost time getting your hydraulic hoses replaced!

More Solutions More Resources

From tough abrasion applications to sub-zero temperatures, **we offer an extensive line of Parker products** to meet your needs. We have **an easy cross reference catalog for industrial hose assemblies for most makes of lift trucks and other materials handling products.**

For more details contact us at...

Not All Hose & Fittings are Created Equal:

All Parker hoses are manufactured to rigorous internal designs that meet or exceed industry standards. Parker ensures that their hose fittings are designed as a system to match a specific hose requirement.
