

Up-sell your Customer to a Cascade K-Series Fork Positioner

Cascade K-Series Fork Positioners, offered through the UNISOURCE™ program, allow the operator to accurately position the forks from the driver's seat for handling a variety of pallet configurations. The K-Series Fork Positioners have a proven track record and excellent specifications.

The K-Series Fork Positioners offer the following benefits to provide higher productivity:

- **Improve Operator Safety** - Avoid driver back strain and injuries related to manually moving forks on the lift truck.
- **Increase Productivity** – Eliminate the need for the driver to have to get on and off the truck to manually move the forks.
- **Reduce Damage** – Allow the driver to accurately position the forks from his seat for handling a variety of pallet sizes.
- **Reduce Total Cost** – K-Series Fork Positioners are low cost and can be installed without any welding.

The K-Series Fork Positioners pay for themselves with the benefits listed above. To calculate your Return on Investment and share with your customer, please [click here](#).

All K-series Fork Positioners purchased through the UNISOURCE™ program count towards your 2011 “You Make It Happen” recognition program. For a complete list of part numbers and specifications, please visit the Digital Dealer or [click here](#).
